

Gina Krieb

Senior Software Engineer

Portland, OR • +1-630-779-6574 • ginakrieb@gmail.com • linkedin.com/in/ginakrieb

Senior Software Engineer with experience building full-stack web applications across agency work and SaaS products. Focused on backend systems and database architecture, particularly structural work that holds up at scale. Known for bringing clarity to technical decisions and helping less experienced engineers level up through code review and mentorship.

WORK EXPERIENCE

Teachable, Remote • December 2023 – Present

Senior Software Engineer II • April 2026 – Present

- Led backend planning and development for Learning Paths, a new core product feature.
- Leading architecture and planning for Learning Paths compliance, enabling ordered course sequencing within learning paths.
- Integrating AI tooling into development workflow, using GitHub Copilot and Kiro IDE to generate and iterate on code while applying engineering judgment to evaluate output.

Senior Software Engineer I • December 2023 – April 2026

- Architected a denormalized read model for the student product catalog, replacing a query-heavy legacy schema that couldn't sustain growth.
- Eliminated N+1 patterns and **reduced query volume by 90%+**, delivering **14-25x performance gains** through schema redesign and a **Kubernetes-orchestrated backfill of 2.5M+ records**.
- Architected the new student dashboard, owning technical design across a NextJS frontend and Rails/PostgreSQL backend.
- Interviewed and evaluated engineering candidates.

Screencastify, Remote • October 2020 – January 2023

Senior Software Engineer • August 2021 – January 2023

- Architected SSO/authentication system that secured contract renewal with the company's **largest school district**, serving **565,000+ students**.
- Initiated accessibility audit outlining cross-departmental recommendations to improve usability across a platform serving millions of users.
- Mentored engineers through code reviews, feedback, and ongoing technical guidance.
- Interviewed and evaluated engineering candidates.

Software Engineer • October 2020 – August 2021

- Built and maintained features for a Chrome extension, including a video/quiz player, serving millions of users across **70%+ of US school districts**.

SnapMobile, Chicago, IL • July 2015 – October 2019

Lead Software Engineer

- First engineering hire; built and shipped **25+ full-stack web and mobile applications** for clients ranging from startups to large enterprises.
- **Led and scaled a team of 5 engineers**, running 1:1s, onboarding, and mentorship.
- Delivered regular releases to the App Store and Google Play while supporting live production applications.

EDUCATION

Dev Bootcamp, Chicago, IL - Web Development

University of Iowa, Iowa City, IA - BA, Communication Studies · BA, Psychology

TECHNICAL SKILLS

Languages: Ruby, TypeScript, JavaScript, SQL

Backend: Ruby on Rails, Node.js, Express, PostgreSQL, REST APIs

Frontend: React, Next.js, Tailwind

Tooling: New Relic, LaunchDarkly

AI Tooling: Claude, GitHub Copilot, Kiro
